Items for the Daily Log - 28 May 1953

Legislative Counsel

25X1 1. Mr. Robert Kennedy of the Staff of the McCarthy Subcommittee called to request that CIA furnish them with all available information on the [REDACTED]

25X1 [REDACTED] Mr. Kennedy had previously contacted Mr. John Phillips of the Department of Commerce, who stated that the information they desired was classified and came from State and CIA sources and recommended that Mr. Kennedy secure the information directly. Mr. Kirkpatrick has suggested that I pull the necessary information together so that Mr. Dulles may see what is available and determine whether it can be released.

25X1 2. Discussed with Mr. Besterman of the Staff of the House Immigration Subcommittee three private bills in which CIA is interested. (Memorandum for [REDACTED] to be prepared.)

25X1 3. The DDCI called to inquire regarding certain types of cases under Section 8 of the CIA Act and the SOP in connection with such cases. He also wanted to know whether procedures had been laid on for their employment in this country. I informed General Cabell that the basic paper on this matter was just in the process of revision and that I would bring his comments to their attention. I have also recommended to Mr. Kirkpatrick that the DDCI be briefed on current procedures in this field.

25X1 5. [REDACTED] informed me that Mr. Donegan and Mr. Hummer of
25X1 the Department of Justice had come to see [REDACTED] on a
25X1 personal basis to secure assistance in locating groups who were com-
25X1 petent in the field of content analysis and who could help the Department in
the preparation of the Lattimore Case. [REDACTED] took them to Mr.
[REDACTED] who is trying to get some information for them. As Mr. Donegan
25X1 has previously discussed this matter with this office and Mr. Amory and
has been given all the assistance which we have felt was warranted, I have
requested [REDACTED] to forward any material he may have to me, and we
will then determine what additional information to give Donegan.
